INTRODUCTION

Canada's population is made up of many cultural or ethnic groups, the largest being the British Isles and French groups. This report shows the 1961 population of Canada classified by ethnic groups and sex.

Historical figures on the ethnic composition of Canada's population are shown in Table 34. Figures for earlier years back to 1871 may be found at Table 31 of Volume I of the 1951 Census. All ethnic groups for which separate figures are available from the 1961 Census tabulations are given for provinces in Table 35 of this report. The remaining tables show a less detailed classification for other types of areas, e.g., counties, municipalities of 10,000 and over, metropolitan and other major urban areas.

In the census, a person's ethnic group is traced through his father. In 1961, each person was asked the question, "To what ethnic or cultural group did you or your ancestor (on the male side) belong on coming to this continent?" The language spoken at that time by the person, or his paternal ancestor was used as an aid in the determination of the person's ethnic group. Special instructions were provided in cases where the language criterion was not applicable.

The following summary statement shows the percentage distribution by ethnic group for Canada from 1901 to 1961.

La population du Canada se compose de plusieurs groupes culturels ou ethniques. Les principaux sont les Britanniques et les Français. Le présent rapport répartit la population du Canada de 1961 suivant les groupes ethniques et le sexe.

Le tableau 34 présente une statistique chronologique de la composition ethnique de la population du Canada. Les chiffres des années antérieures, à partir de 1871, sont donnés au tableau 31 du Volume I du recensement de 1951. Tous les groupes ethniques dont il existe une statistique distincte d'après le recensement de 1961 sont indiqués par province au tableau 35 du présent rapport. Les autres tableaux donnent une répartition moins détaillée pour d'autres étendues de territoire: comtés, municipalités de 10,000 habitants et plus, zones métropolitaines et autres grandes agglomérations urbaines.

Au recensement, le groupe ethnique d'une personne se détermine d'après l'ancêtre paternel. En 1961, on a posé à chaque personne la question: "A quel groupe ethnique ou culturel appartenait votre ascendant paternel (ou vous-même) lors de son arrivée en Amérique?" La langue parlée à ce moment-là par la personne, ou par son ancêtre paternel, a aidé à déterminer son groupe ethnique. Des directives spéciales visaient les cas où la langue ne pouvait servir de critère.

L'exposé sommaire qui suit donne la répartition procentuelle des groupes ethniques au Canada de 1901 à 1961.
